## Personal Information

Date of Birth : 5 August 1989  
Marital Status : Married  
City of Residence : Jakarta, Indonesia

## Summary

Full-stack web developer who primarily works in Laravel and Drupal on the back-end and converts design into live, pixel-perfect websites using HTML5, CSS3 and jQuery.

I believe that to produce excellent work, it is very important to look at the whole scope of the project so I can work proactively and with a sense of ownership.

## Work experience

### Project & Technology Lead

2016 - Current

#### [Kommercio](#)

This project is a custom built E-commerce system that aims to centralize our clients' operational in one Backoffice. We are a team of 2 designers and myself as Lead Developer.

As a Lead Dev, I am mainly working on Backend and system architecture, managing projects and outsourced frontend devs.

Built with Laravel, MySQL, jQuery, Bootstrap

### Founder

2015 - 2017

#### [CV. Webpresso Digital](#)

I founded CV. Webpresso Digital as a Web Development agency where I managed an in-house team of 3 programmers, 1 designer and 1 admin staff.

My role was mainly project managing that includes meeting with clients, gathering requirements, designing technical architecture and manage in-house team.

Backend technologies we used are: Drupal, Wordpress, Magento, Laravel

### Lead Developer

2014 - 2015

#### Snapneed

Snapneed is similar to thumbtack.com

I started with 2 other partners (Business and Creative partners).

We launched the MVP and received great responses. However, due to financial and time limitation, we decided to stop continuing the project.

My role was mainly Backend developer and supervised 1 junior programmer.

Built with Laravel, MySQL, jQuery

## Senior Developer and Project Manager

2010 - 2014

[PT. Design Tiga Selaras](#)

Senior Developer and Project Manager who lead team of four programmers.

Main technology: Drupal
